

What Our Clients Say

We had a demonstration provided, and **I was blown away. I remember thinking to myself "This can't possibly work that well"**. The software is at least 3-4x better than what I was using previously, for redaction.

Mike Snell
Spokane Police Department

CaseGuard, along with good detective work, has been **instrumental in solving crimes**. The software allows us to enhance facial features, tag vehicle information and enhance tattoos - making vital evidence clearer.

Krissie Lagana
Wichita Police Department

Why CaseGuard

All-in-one **redaction software** for videos, audio, images, emails and documents.

Save time with **AI automatic redaction**.

Installed locally, **safeguarding your privacy**.

Redact thousands of files in bulk at once.

Redaction in Four Easy Steps

1. Add Files: Create your project locally, add your files, including **Video, Audio, Image, and Documents.**

2. Select What to Detect: Select what **Personal Identifiable information (PII)** you would like to detect based on your file type.

3. Review the work by checking the automatically generated reports.

4. Export your redacted files immediately or schedule them to be processed later.
